Hopkinton Fire Department

Re: Stagecoach Heights

Nature: Naming of Streets For Emergency Response

Date: 01 April 2004

Board Members,

I have spoken with Chief Daugherty, Chief Irvin and the Building Inspector regarding Benchmark Engineering Corp's request for input on street names for the Stagecoach Height subdivision.

1. We are in agreement for making the entire exterior loop road Patriot Blvd.
2. The Building Inspector's plan for unit numbering on these streets is acceptable to this department.
3. Our department does not identify any conflicts with existing street names when using Patriot Blvd, Paul Revere Path and/or Minuteman Lane.

If you have any questions or need any additional information feel free to call us.

Respectfully,

Lt. Ken Clark  
Operations Officer
